CITY COUNCIL. -- At an adjourned meeting of the City Council last night there was no quorum in the Board of Aldermen.

Common Council.-The Common Council met at Harmonie Hall last night. After much difficulty a quorum of members was obtained at were present.

The chair announced that the Board had assembled for the purpose of considering the act for the issue of coupon bonds for erecting a

The consideration of the bill was then resumed.

Mr. Shinn said that it was at first supposed that the preferred stock held by the city in the Orange and Alexandria Railroad, could not be sold and used for the Market House, because by the act making the subscription the interest on that stock was pledged for the redemption of the bonds issued to purchase it. But a more careful examination of the law had convinced the committee that that difficulty might be overcome. The stock could be sold, its proceeds invested in a Market House, and the rents pledged for the redemption of the stock. In this way \$4,000 raised annually from the 1883 retire \$100,000 of the city stock and leave the market afterwards to pay the city \$6,000 or \$7,000 per annum. The committee would a bill in accordance with the plan he had

Mr. Massey opposed the sale of the stock, because the O., A. & M. Co. was selvent, the stock was good, and the interest could be obtained by a suit and judgment.

Mr. Shinn briefly defended the plan he had proposed. By Mr. Massey's plan this Orange stock would earn nothing, by that of the committee it would between this and 1883 retire \$100,000 city stock and pay for the new Mar-

Mr. Massey argued that if this stock was worth \$45,000 to the persons who would buy it was worth that to the city. Nebody would buy the stock except they expected to make money upon it. If it would pay a purchaser to buy the stock, it would pay the corporation to

Mr. Smoot supported the plan suggested by Mr. Shinn, and answered the argument of Mr. manufactory. They applied to the owner of ground on the north of the city, and offered him a good price. He refused, alleging that if the land was worth that to them it was worth as much to him. The ground was a common then and did not produce a cent; it is a common now and don't produce a cent. That was the result of arguments of that character. Mr. S. proceeded to state what had influenced the committee to propose the sale of this stock. \$40,000 at 7 per cent in gold had been withdrawn and the money must somehow be raised. It was only proposed to sell the original subscription (\$100,000) not \$150,000 preferred stock. That \$100,000 had in 21 years never declared a dividend except once a script divi-dend of \$2.50 a share. He explained the cireumstances which would make it impossible for the Orange Company to pay interest on even its preferred stock for 25 years to come. If the yearly receipts of the old market house were \$3,500, he believed those of the new would be \$5,000. Mr. Shinn. Mr. Smythe, of the First National Bank, and himself, had made estimates, however, upon only \$4,000 annual receipts, and had found that in 12 years these receipts, if invested semi-annually, would enable us to retire more than the original subcription to the railroad, while if we did not self the railroad stock in the same period, we will have paid out \$70,000 in interest and not have retired a single cent. The only inconvenience such

money nevertheless. Mr. Massey said Wm. Alexander was dead and there were half a dozen titles to the land. It was like a farm he had in Mississippi. Some body had gotten the farm and had dispossessed him of his right of possessing it.

Mr. Smoot again defended his position. Mr. Massey urged that the control of this stock gave Alexandria a commanding position

in the councils of the company. Mr. Smoot said that Mr. Barbour had told him in regard to the recent election. (Col. Suttle-There are reporters here. He was glad there were reporters here, for he wanted what he said to go out to the world.) Mr. Barbour told him that the Barbour-Cazenove party did not care who was appointed proxy for the city. They controlled stock enough to re-elect their candidates. The State was about to sell its stock, because it saw no chance that it would produce any return, and the best course would be for the city to do the same.

Mr. Shinn wanted Mr. Massey to tell him how he would build the market if this stock Mr. Massey-He would issue bonds and tax

The debate being informal was here brought to a close, and it was agreed that the committee have leave to bring in a new report.

THE BOSWELL CASE. - The case of the Commurder of a colored girl, aged about 6 years, Thursday evening last: named Martha French, on the 4th of last July. was finally concluded last night about half past nine o'clock, when the jury returned a verdiet degree of crime. This case has attracted considerable attention here and elsewhere, as involving some new and interesting questions of criail nal law. The effect of drunkenness, as affecting

this State, and the decision will be of great well's counsel contended that he was not guilty of murder in the first degree (as was then claimed by the Commonwealth) because at the time he committed the crime with which he ing a wilful, deliberate and premeditated puryears. The Court of Appeals to which the case was taken, reviewed the whole doctrine of drunkenness as affecting crime. They sustained the view of the counsel for the prisoner, that into consideration in determining whether the man is guilty of murder in the first degree, the requisite of which being wilfulness, delibertion and premeditation. The court laid down the doctrine that voluntary drunkenness was no excuse for crime even if insanity be produced. if the insanity be the immediate result of the use of liquor. If, however, the insanity be remotely the result of the use of intoxicating liquors, then it is an excuse for crime. In the present trial under the ruling of Judge Lowe. that the prisoner having been acquitted of murder in the first degree could not be again tried for the same crime; the counsel for the prisoner contended, 1st, that Boswell was not guilty of murder in the 2nd degree, because of the absence of malice express or implied, the lack of former acquaintance, and of motive and the nature of the weapon used doing away with the manslaughter because he was insane when he committed the act, the insanity having been remotely caused by the use of intoxicating liquors. These views were presented in elaborate, impressive and excellent arguments by the counsel for the prisoner, Messrs. Brent & Wattles, F. L. Smith, jr., and S. C. Neale, and resisted with his usual ability by the Commonwealth's Attorney, Capt. D. L. Smoot. statement. It was stated that application for bail for Thomas R. Bird, now confined on a charge of bigamy, had not been made, because magistrates cannot take bail in such cases except where there is only a slight suspicion of guilt, and that it was understood his counsel would have to have him brought before Judge publish sensational items, have made in regard to this case. But we had hoped, inasmuch as the request had been specially made of our papers here, to see no more of them, at least in your usually correct and cautious journal. You can "understand" a thousand different versions of a fact if you rely on each opinion or surmise you gather on the streets. But we beg, in justice to a man whom the law of the hand yet de clares to be innocent, that you will let a jury of his peers condemn him, in a regular way, be-fore pronouncing sentence. We disclaim, for our client, any authority whatever for the statement of yesterday. Because we choose, in the exercise of our judgment, to refuse to devel-ope our defence till the time shall come when we need it, let not that be construed into an admission that we have none. And when you desire your local columns, please get it from those whose duty it is to "understand" it. Very re-M. DULANY BALL

Counsel for T. R. Bird. There will be a Bible Presentation at Roberts M. E. Church, Washington street, tomorrow morning, after divine services, by Mr A. Murphy, of Washington, D. C. The public is invited.

SPECIAL NOTICES,

El Vine Catalina .- The announcement that has been so generally heralded throughout the country that an American company has egg in commenced importing this celebrated Wing Tonic is a received. Tonic is a matter of no small importance, and win be hailed with joy by all those seeking a pure and invigorating tonic; also, those who need a pure, pleasant and refreshing stimul nt will find in the El Vino Catalina, or Brown a Catalina Wine Tonic, what they want. It will be remembered that importations were made a 1806 of this noted brand, but in consequence of the high duty then demanded by this government, the enterprise ceased, to the regret of thousands who had learned its value. It is the thousands who had learned its value. It is the oldest tonic in the world, and doubtless the most invigorating, the purest and best, and if importation continues at the rates now started, it will take its place in every family in this as well as in the old countries. Its merits will make it a household article, and we hope that every one who has ever used any Bitters or common patent tonie, will at least try one bottle of the Catalina, and then decide for themselves whether they will use this Tonic, prepared trein the pure juice of the Catalina grape, with Calicaya and the spices of Ceylon, or a bitters made of com-mon whiskey and bitter field herbs. This is an invaluable preparation for weakness and debili ty; it relieves morning languer and gives fresh ness and appetite, not followed by an unpleasant

It cures Dyspepsia, Indigention, Costiveness Bilious Derangements, Cramp Colic, Flatu-lence, Diarrhou, Dysentery, Nauson, Vomiting, Morning Sickness, Chills and Vevers, Headwelle, Nervous Irritability, Antenia, Heart Disease, Diseases of the Kidneys and Bladder, Diseases of the Skin, and all Eruptions, either caused by other diseases or impurity of the blood. As a Tonic in Consumption, it has no superior, of which thousands believe themselves to have been cured by its use. We do not claim that it will cure Consumption, but we are sure that it will cure Consumption, but we are sure that is will prevent it if taken freely in time.
